

**Billiard Congress of America
Membership Categories and Pricing Changes**

The Billiard Congress of America (BCA) general membership approved a bylaws revision in May 2008, which changed the categories of BCA membership. These new membership categories will become effective January 1, 2009. Information regarding the new categories, as well as the pricing structure for each category, is listed below.

If you have any questions regarding the new BCA membership categories and pricing structure, please contact Shane Tyree, BCA membership coordinator, at shane@bca-pool.com or 303.243.5070, extension 26.

Category 1 (Manufacturer/Distributor): Licensed business entity engaged in the manufacturing process or wholesale distribution of billiard equipment or accessories.

Category 1	Dues Amount
Annual revenues greater than \$3 million	\$1,500
Annual revenues \$1 to \$3 million	\$750
Annual revenues less than \$1 million	\$350

Category 2 (Retailer): Licensed business entity engaged in the selling of billiard equipment or billiard accessories from an established, publicly known place of business.

Category 2	Dues Amount
1 retail location	\$200
2 retail locations	\$300
3+ retail locations	\$400
Online Retailer	\$400

Category 3 (Room Operator): Licensed business entity operating one or more establishments where billiards are played; and licensed business entity operating a billiards league or league system.

Category 3	Dues Amount
1 location	\$150
2 locations	\$250
3+ locations	\$350

Category 4 (Affiliate): All others in four subgroups:

- Associations, organizations, publications and other licensed entities actively engaged in the billiard industry;
- Licensed entities not engaged in the billiards industry;
- Professional billiard players (individuals) that earn their living from playing billiards, giving exhibitions of billiards or otherwise promoting the sport; and
- Any other person or entity that the Board of Directors deems appropriate for membership in the organization.

Category 4	Dues Amount
Any of the aforementioned subgroups	\$100
